

**VKRP TRAININGS**

The VKRP team is implementing a train-the-trainer model in 2017. During the spring/summer of 2017, VKRP will train a representative(s) from each participating division on the VKRP assessments and online system. Your division’s VKRP Trainer(s) will need to provide staff members conducting the VKRP assessments (generally kindergarten teachers) with a half-day session on administering the measures and using the online application. Teacher trainings typically take place during the Professional Development/pre-service days prior to the start of school, but can also be scheduled within the first couple of weeks of instruction.

**VKRP ASSESSMENT WINDOW**

The VKRP assessment window is generally the 2 weeks **immediately prior** to the division’s PALS-K fall assessment window. Teachers will complete the math and social-emotional assessments during this 2-week window.

**PALS-K WINDOW**

The four-week assessment window for PALS-K begins six weeks into school. Teachers must administer the PALS-K assessments within any contiguous two-week period within the four-week window.

**TYPICAL VKRP IMPLEMENTATION TIMELINE**
